ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH

For the Year 1971

To:

The Chairman and Members of the
Vaynor & Penderyn Rural District Council

Mr.Chairman and Gentlemen,

I beg to submit my Report on the sanitary conditions and the state of the Public Health in the Vaynor & Penderyn Rural District during the year 1971.

In this Report I have endeavoured to deal briefly with all matters within my responsibility regarding Public Health and Preventive Medicine,and I have included comments on the subjects specifically requested in Circular 1/72 (Wales) by the Welsh Board of Health.

I wish to tender my thanks to the Members of the Council for their helpful consideration and co-operation in all matters affecting Public Health.

Also the Officers of the Council for their help in all matters appertaining to the duties of the Public Health Department.

I am,

Mr.Chairman and Members,

Your Obedient Servant,

J.K.JONES.

SANITARY CIRCUMSTANCES

WATER SUPPLIES

The district which has several supplies of piped water, has on the whole been satisfactorily supplied with water. Cefn Coed in the Vaynor Parish is supplied from the mains of the Taf-Fechan Water Supply Board, as is the greater part of the Vaynor Parish.

In the Parish of Penderyn, Hirwaun is supplied from the mains of the Taf-Fechan Water Board. At Penderyn the water is obtained by the Board from the Borehole supply at Llygad-y-Cynon, which ensures a good, clean and wholesome supply of filtered and chlorinated water for the Village and many farms.

Pontneathvaughan, in the Parish of Ystradfellte, is supplied by the mains of the West Glamorgan Water Board. This supply however, has not given connections to the outlying farms and homesteads.

During the year, samples of water were taken for bacteriological examination from the Council mains, and also from farms.

DRAINS AND SEWERAGE

DRAINAGE AND SEWAGE DISPOSAL WORKS

The Council has provided efficient drainage and sewage works for the whole of the area with the exception of the small hamlet of Ystradfellte.

The disposal of sewage from the Hirwaun district is undertaken by the Aberdare Urban District Council under a joint scheme. Five other separate systems of sewage disposal are operated by this Council throughout this area. They are situated at Trebanog, Penderyn, Dinas, Pontneathvaughan, Godre-y-Coed, Cefn Coed, The Ynys, Pontsticill, and at Rees's Wood, Trefechan.

Consultant Engineers have been engaged to ascertain whether it is possible to link up the Cefn Coed Sewers with the new Merthyr County Borough Council's main which is to be constructed from the Goitre area linking up with the South Boundary of Cefn Coed.

PUBLIC CLEANSING

Refuse Collection

Refuse is collected in the Cefn Coed, Hirwaun, Penderyn, Trefechan and Pontneathvaughan districts once weekly, and once a week in Pontsticill and Ystradfellte.

Refuse Disposal

Refuse collected in the Vaynor Parish is deposited at Berthllwyd Tip, Vaynor. Refuse from the Penderyn and Ystradfellte Parishes is deposited at Gelli Farm, Hirwaun.

Care is being taken to ensure that the refuse deposited at these tips does not become a breeding ground for vermin.

The Tips are regularly inspected and baited when necessary.

INSPECTION AND SUPERVISON OF FOOD

SLAUGHTERHOUSES

There are no slaughterhouses in the Council's area. All meat sold for human consumption in this area is supplied from slaughterhouses in adjoining areas.

FOODS AND DRUGS ACT, 1955

A close inspection is made of meat and other foods sold in retail establishments throuout the area. 270 visits were made to Butchers Shops, food retailers, fried fish shops, ice-cream premises, cafes and public houses during the year.

Condemnation certificates are issued in respect of food-stuffs condemned in our area in accordance with the various Food Regulations issued by the Ministry concerned. The following articles of food were condemned during the year as being unfit for human consumption. : -

Cooked Ham (Tinned) - 10 lbs.

FOOD PREMISES

During the year visits were made to retail food shops and premises where food is prepared, stored or deposited for the purpose od sale to the public. Food Shops, Canteens and Restaurants were visited regularly and the Food Hygiene Regulations were brought to the attention of all persons engaged in the handling of food.

The undermentioned is a list of all such premises : -

General Stores	...	17

Canteens	8	8	8	8

LICENSED PREMISES

Visits have been made to all the licensed premises in the area, and it is pleasing to note that improvements continue to be made to raise the standard of these premises in every possible manner.

Every house is endeavouring to utilise the provision of proper facilities for cleansing glasses and utensils, and serving refreshments in a hygienic manner.

The sanitary accommodation of these premises has been improved and the owners of these premises are always willing to cooperate in providing amenities and alterations.

FARMS, DAIRIES AND COWSHEDS

Since the 1st October 1969, The Ministry of Agriculture,Fisheries and Food, has been responsible for farms, dairies and cowsheds under the Milk and Dairies Regulations, 1949, the Local Authority therefore, have no control over the inspection of these premises other than the Infectious Diseases Regulations and the Tuberculosis Acts.

The Local Authority is however, responsible for dealing with the water supply to these farms and in this connection, the County Agricultural Exe Committee has cooperated in endeavouring to supply a piped water supply to the farms. The Local Authority is now also responsible for the carrying out of the requirements of the prevention of Damage by Pests Act, 1949, which was formerly carried out by the County Agricultural Executive Committee.

MILK SAMPLING

The milk produced in the area is collected and transported to milk factories where it is pasteurised. This milk is tested and examined on arrival at the factories, by the laboratories attached.

PREVENTION OF DAMAGE BY PESTS ACT 1949

Under this Act the Local Authority is responsible for the survey of the whole area in relation to infestation of rats and mice.

The work of surveying and inspecting the district has been carried out under the supervision and direction of the Public Health Inspector. A full-time Rodent Operator is employed in the Public Health Department, and he is at certain times of the year, assisted by temporary employees.

The sewer systems in the Local Authority's area have in accordance with the provision made by the Ministry of Agriculture, Fisheries and Food, been treated twice during the year. These maintenance treatments have been carried out in conjunction with surface properties.

This area being of rural character, has necessitated a close watch being kept on the infestation of river banks and culverts near villages.

The Refuse Tips in the area have been dealt with at regular intervals and are inspected weekly to prevent any infestation occurring or remaining on these lands. This work on tips, is also maintained in the region of the Sewage Disposal Works, where no major infestations have been found during the past year.

During the year special attention has been paid to premises where food is stored or prepared for human consumption. These premises are visited regularly and it is pleasing to note that few complaints are received, or evidence found of infestation in such premises. The occupiers of these premises are aware of the damage likely to be caused by rodent infestation and have taken great care to keep their premises in a satisfactory manner.
